The information provided here is general information only. It does not take into account the investment objectives, financial situation or needs of any particular investor. You should not base your decision to invest in the Fund solely on this information. You should obtain professional financial advice tailored to your personal circumstances and consider the suitability of the Fund in view of your financial position, investment objectives and needs before making an investment decision. K2 and its respective employees, agents and officers do not guarantee the success, repayment of capital, rate of return on income or capital, or investment performance of the Fund. Past performance is not a reliable indicator of future performance. Units in the Fund are offered and issued by K2 on the terms and conditions described in this PDS. You should read this PDS because you will become bound by it if you become an investor in the Fund. It is your obligation to seek any advice on, and observe any legal restrictions on investment in the Fund which may apply to you.

All amounts in this PDS are in Australian dollars. All fees are inclusive of goods and services tax (GST) and take into account reduced input tax credits (RITCs) if applicable.

Information in this PDS is subject to change of a type that is not materially adverse from time to time, and such updates may be viewed at www.k2am.com. You can obtain any updated information via the online investor portal or by contacting K2. A paper copy of any updated information will be provided free of charge on request.

K2 has authorised the use of this PDS as disclosure to direct investors and prospective investors of an investor directed portfolio service, master trust, wrap account or an investor directed portfolio service-like scheme (IDPS). Indirect investors investing through an IDPS may rely on the information contained in this PDS in instructing IDPS

operators to invest in the Fund on their behalf. K2 accepts no responsibility where the IDPS operator does not provide investors with a current version of this PDS or any supplementary or replacement PDS. More information for IDPS investors is set out in Section 07 on page 10 of this PDS.

As a disclosing entity, the Fund has regular reporting and disclosure obligations under the Corporations Act 2001 (**Corporations Act**). In accordance with ASIC guidance, all material information will be available to investors at www.k2am.com. A copy of any documents lodged with ASIC to comply with disclosure requirements may be obtained from or inspected at an ASIC office. On request, K2 will provide investors with copies of the most recent annual financial report for the Fund, the half-yearly financial report and any continuous disclosure notices.

Investors can contact K2 or their IDPS provider, or access the online investor portal at www.k2am.com for updated information about performance, unit prices, Fund size and other general information about the Fund.

Summary of disclosure against ASIC benchmarks and principles

About K2 Asset Management Ltd

K2 Asset Management Ltd (**K2**) is an Australian fund manager specialising in managed funds for retail, wholesale and institutional investors. K2 was established in 1999 and is owned by K2 Asset Management Holdings Ltd, a listed company on the Australian Securities Exchange.

K2 is the responsible entity and investment manager of a number of investment funds including the K2 Asian Absolute Return Fund, K2 Australian Absolute Return Fund, K2 Select International Absolute Return Fund, K2 Global High Alpha Fund (the **Fund**), K2 Australian Small Cap Fund and K2 Global Equities Fund. As responsible entity, K2 oversees the operation and management of the Fund and is required to act in the interests of investors. As the investment manager, K2 is responsible for directing all investments within the Fund.

Since inception K2 has brought together a team of investment professionals with a depth of knowledge and experience in local and global equity markets. More information about the individuals responsible for the investment management of the Fund, including the proportion of time each individual devotes to executing the Fund's investment strategy, is available at www.k2am.com. The Fund is not dependent on any particular individual but enjoys the benefit of the expertise of a group of professionals operating as a team.

K2 is indemnified out of the Fund against all liabilities and expenses incurred by it in properly performing any of its duties, exercising any of its powers, or omitting to act in relation to the Fund, or attempting to do so. Subject to the Corporations Act, provided K2 acts in good faith and without negligence, it is not liable to investors for losses in relation to the Fund (except in certain circumstances, where it can be indemnified from the Fund).

02

How the Fund works

The Fund is an Australian registered managed investment scheme and unit trust. In a unit trust structure, when you invest your money it is pooled with other investor funds. The units which you are issued with are priced monthly and reflect the changing market value of the underlying assets.

Investment structure

Investment strategy

- The Fund invests in globally listed equities across a range of sectors and aims to deliver strong capital growth over the long-term. K2's investment approach is to invest in high quality stocks and actively adjust net exposure in line with K2's index unaware strategy. K2's investment parameters allow both Long and Short investment in equity markets, with the added flexibility of investing in cash. The Fund carries specific capacity limits, enabling it to remain versatile and protect its ability to continue to achieve its performance objectives.

For more information about the Fund's investment strategy please refer to section 05 on page 06 of this PDS. For information regarding risks of the Fund's structure refer to section 04 on page 05.

The Fund at a glance

Applications

Monthly

You can apply for units by completing the forms and sending them with cleared funds to the Unit Registry by 2pm on the last Business Day of the month (**Valuation Day**). Units are issued on the first Business Day of the following month.

Minimum Initial Investment

\$20,000

Minimum Additional Investment

\$10,000

You can add to your investment at any time. Simply complete an additional application form available from K2 upon request and send it with cleared funds to the Unit Registry by 2pm on the Valuation Day.

Valuation

Monthly

On the last Business Day of the month.

Redemption

Minimum 30 days' notice prior to Valuation Day

You can redeem some or all of your investment by completing the redemption form available from K2 upon request.

Minimum Withdrawal

\$10,000

If your redemption results in the remaining balance of your investment falling below \$20,000 then only a complete withdrawal is permitted.

Access to Funds

Within a fortnight of the Valuation Day

Exceptional circumstances may however arise where the ability to access your investment is restricted and you may have to wait a period of time before you are able to redeem. This may occur, for example, if equity markets suspend trading or if the Fund becomes illiquid. Short delays may occur if you redeem at 31 December or 30 June while distributions are being finalised.

Distributions

To prevent the Fund from incurring a tax liability, the Fund may pay distributions shortly after 30 June each year. Distributions can be made more frequently at K2's discretion. Distributions are calculated based on the Fund's net income at the end of the distribution period divided by the number of units on issue. You can reinvest your distribution automatically into the Fund or have it paid directly to your bank account.

A distribution of net income generally forms part of a unitholder's assessable income, and you will be liable to pay tax on that income. At the time of distribution, the value of each unit will be reduced by the distribution amount.

Reporting

Quarterly performance reports and semi-annual investor statements are sent to all unitholders via email or post. Fund performance and other information is available via our online investor portal at www.k2am.com.

03

Benefits of investing in the Fund

Investing in the Fund offers a range of benefits including:

Expertise

You benefit from the skill and experience of K2's dedicated equity investment team. K2's portfolio managers bring with them their own investment style while still adhering to the Fund's portfolio rules and guidelines.

Flexibility

The Fund invests in a diverse range of listed equities rather than reflecting an index or benchmark. Portfolio managers have the added flexibility to buy Long and sell Short as well as hold cash in different market cycles.

Client Service

We will provide you with regular statements of your investment and updates on the performance of the Fund and current market conditions. You will also be able to track your investment at all times through our online investor portal at www.k2am.com.

04 Risks of managed investment schemes

Any financial investment is not without associated risks. All asset classes carry varying degrees of risk.

When considering any investment in a managed investment scheme it is important that you understand:

- the value of investments will go up and down;
- the level of returns will vary, and future returns may differ from past returns;
- returns are not guaranteed, you may lose some of your money and past performance is not necessarily indicative of future performance;
- laws affecting registered managed investment schemes may change in the future;
- assets with the highest long-term returns may also carry the highest level of short-term risk; and
- the appropriate level of risk for each investor will vary depending on a range of factors, including age; investment time frames; where other parts of the person's wealth are invested; and the investor's risk tolerance.

Prior to making an investment in the Fund you should consider if it is appropriate for your individual circumstances and if necessary seek professional advice. Risks that should be considered when investing in the Fund include, but are not restricted to, the following:

- **Market Risk**
Changes in regulatory and economic policy, political events, technology, economic cycles, investor sentiment, environmental and social climate can all impact financial markets.
- **Equity Specific Risk**
Individual companies in which the Fund invests can have specific factors that can impact their stock valuation. This can include market cycles, internal management changes and product/service demands. Some securities may also become illiquid and as a result it may be difficult to exit the position. Due to the high risk/high return nature of the Fund's holdings, investors should be aware that Fund performance has the potential to result in volatile short-term returns.
- **Currency and Interest Rate Risk**
Currency markets can be volatile and are subject to a range of influences. Currency risk occurs where the underlying assets of a Fund are denominated in a currency other than the Australian dollar. Changes in interest rates and exchange rates may impact economic conditions and stock valuations both positively and negatively.

- **Short Selling Risk**

Short selling carries particular risks that traditional Long positions do not. With a Long position, the value of the asset cannot drop below zero, thereby placing a limit on the possible loss inherent in the asset. In a Short position, where the purchaser expects the asset to depreciate, there is a risk that the asset could appreciate. Short selling theoretically has unlimited risk of loss because there is no limit on the level to which a position may appreciate before it is closed out.

- **Counterparty and Broker Credit Risk**

Credit risk is the risk of loss caused by another party, including the Prime Broker or Administrator, defaulting on their financial obligations. For more information see section 09 on page 12.

- **Derivative Risk**

The Fund may use various derivative instruments, including futures, options, forward contracts and other derivatives. The more volatile nature of these instruments may impact the returns of the Fund.

While K2 actively manages both market and currency risk, many risks remain outside K2's control and are unable to be fully protected against. Accordingly no guarantee can be made that these risks will not eventuate. Various risk management strategies are adopted for all internally identified risks. These include, but are not limited to, stop loss guidelines for all positions, exposure limitations on asset classes, internal trading systems that allow continuous transparency to the Fund's assets, annual reviews of service providers and continuous audit and compliance obligations.

Ways to reduce or manage risk:

Seek professional advice

K2 recommends you seek professional advice to assist in understanding your current financial situation and your individual investment objectives.

Invest for at least the suggested time frame

Historically, growth assets have achieved the highest returns over the long term, with the greatest risk in the short-term.

Individual investment strategy

You should consider the following factors before investing in the Fund:

- your risk profile;
- your investment timeframe;
- the level of return you are seeking;
- whether you are investing for income or growth; and
- your current financial situation.

05

How we invest your money

Investment Objective

The Fund aims to deliver capital growth over the long-term by seeking out opportunities in undervalued companies in all market cycles.

Investor Suitability

This Fund may be suitable for you if:

- you have a long-term investment period;
- you seek diversification within traditional asset class exposure;
- you seek exposure to global equities; and
- your risk tolerance is very high and you are comfortable with the level of risk associated with the Fund.

Description of Fund

The Fund invests in globally listed equities. Typically the Fund will hold between 80 and 120 different stocks, but if deemed appropriate, the Fund may also hold up to 100% cash. The Fund can buy Long and sell Short when seeking out investment opportunities and there is no predetermined capital allocation to any geographic region or industry sector.

Please refer to section 07 on page 11 of this PDS for key aspects of the Fund's unit pricing policy.

Investment Strategy

K2 employs a top-down macroeconomic view with bottom-up stock selection to identify investment opportunities.

Continuous macro-economic analysis of market conditions determines the Fund's net equity exposure. This top down overlay provides our investment managers with the autonomy to invest in a benchmark unaware manner, in sectors and regions that they believe will add the most value.

K2's investment strategy intends to produce investment returns by:

- adopting a flexible investment style that reflects the economic cycle;
- actively adjusting net equity exposure;
- identifying major themes or catalysts in a timely manner;
- being index unaware with a Long bias; and
- allocating capital dynamically.

The Fund's ability to produce investment returns is dependent on a wide range of factors, none unusual or unique to the Fund. The Fund's performance returns may be impacted either positively or negatively by market conditions, interest rates, equity specific factors, liquidity and currency movements. Refer to section 04 on page 05 for more information on risks.

K2 may amend the investment strategy if it believes it is in the best interest of the Fund to do so. K2 will notify you of any such change in the Fund's investment strategy; however the strategy is not expected to change over the life of this PDS.

Types of Assets Held

The Fund primarily invests in international and Australian listed equities. If deemed appropriate, the Fund may hold up to 100% cash. Consistent with typical industry practices, the reference to listed equities includes investments in entities that plan to list on the relevant securities exchange within the next 6 months. The Fund may also make other investments as permitted by the Fund's constitution.

The Fund may also use exchange-traded and over-the-counter derivative instruments.

Equities are denominated in their local currency. Currency is taken into account at the portfolio level and positions are adopted purely as a hedging tool to reduce overall currency risk.

Derivatives

If used, derivatives may include swaps, futures, options and forward contracts. Such instruments are used within the Fund sparingly and the Fund does not have pre-determined allocation ranges for these asset types. K2 will only engage reputable financial institutions (such as the Prime Broker) as a derivative counterparty.

Short Selling

Short selling may be used when specific opportunities or market conditions have the potential to increase returns. Short positions are subject to diligent ongoing exposure risk review by the investment team and stringent stop loss guidelines. Refer to section 04 on page 05 for more information on risks associated with short selling.

Leverage

K2 does not use leverage to increase the net invested position of the Fund greater than the Gross Asset Value of the Fund. In order to implement any Short positions or derivative exposure, equity and/or cash may be required to be deposited with the Prime Broker as collateral. The Fund does not use other types of leverage.

Valuation, Location and Custody of Assets

The Fund invests in globally listed equities in various currencies which are either held by the Prime Broker or in custody accounts with State Street Australia Ltd and Morgan Stanley Private Bank National Association. The roles performed by these custodians are set out at section 09 on page 12 and page 13.

Labour Standards and Environmental, Social and Ethical Considerations

Labour standards and environmental, social and ethical considerations are not taken into account in the selection, retention or realisation of investments relating to the Fund. However, such issues may affect the performance of an investment and any such financial effect would influence K2's investment decision.

06

Fees and costs

It is a legal requirement to display the following consumer advisory warning at the beginning of the fees section of a PDS. The fee example provided in the consumer advisory warning box does not relate to the Fund, and is a standard example prescribed by law.

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This document shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the Fund's assets as a whole. You should read all the information about fees and costs because it is important to understand their impact on your investment.

Type of Fee or Cost	Amount and How and When Paid
Transaction Costs	
Fees when your money moves in or out of the fund	
Establishment Fee The fee to open your investment	Nil
Contribution Fee The fee on each amount contributed to your investment	Nil
Withdrawal Fee The fee on each amount you take out of your investment	Nil
Exit Fee The fee to close your investment	Nil

Type of Fee or Cost	Amount and How and When Paid
Management Costs	
The fees and costs for managing your investment¹	
Investment Management Fee	2.05% per annum (incl. GST & RITC) The investment management fee is calculated and accrued daily based on the Gross Asset Value of the Fund. It is paid monthly in arrears out of the Fund's assets.
Estimated Responsible Entity Fee Covers direct and indirect costs that relate to K2's role as responsible entity.	0.06% per annum (incl. GST & RITC) The responsible entity fee is calculated and accrued daily and is paid monthly in arrears out of the Fund's assets.
Estimated Expense Recoveries² Includes custodian fees, administration, unit registry and other expenses relating to the compliance, investment management, management and administration of the Fund.	0.3527% per annum (incl. GST & RITC) The estimated expense recoveries are calculated and paid in arrears out of the Fund's assets.
Performance Fee A performance fee expense is payable subject to meeting specified performance criteria.	20.5% of the amount by which the NAV per unit exceeds the High Water Mark (incl. GST & RITC) The Fund needs to exceed the High Water Mark before a performance fee applies on the total performance. The performance fee is calculated and accrued daily based on the NAV (before performance fee) of the Fund and is crystallised and paid on a semi-annual basis as at 31 December and 30 June. Performance fees are paid where applicable from redemptions throughout the financial year on a pro-rata calculation.

¹ Management costs reduce the Net Asset Value of the Fund and are reflected in the unit price.

² Based on actual expenses averaged over the three financial years ended 30 June 2013, 2014 and 2015. This is not a guarantee of future expense amounts, these fees can increase or decrease depending on the assets within the Fund.

Example of annual fees and costs for the Fund

This table gives you an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare the product with other managed investment products.

Example: Balance of \$50,000, with a contribution of \$10,000 during the year.		
Contribution Fees	Nil	For every \$10,000 you put in, you will be charged \$0
PLUS Management Costs*	2.46%	And , for every \$50,000 you have invested in the Fund, you will be charged \$1,230 each year
EQUALS Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$10,000 during the year, you would be charged a fee from \$1,230 to \$1,476 [#]

* The breakdown of the Management Costs in the above example is detailed in section 06 on page 08.

Management Costs are charged on your investment amount and any contributions made during the year. The fees you pay will depend on the proportion of the year during which the additional contributions were invested.

Please note that this example does not capture the performance fee that could apply to you if the Fund has exceeded the High Water Mark. The example also does not capture all the fees and costs that may apply.

You should read all the information about fees and costs including the performance fee and other expenses before making a decision as it is important to understand their impact on your investment.

All fees and expenses in this PDS can change without your consent, however it is not expected that the investment management or performance fees will change while this PDS is current. At least one month's notice would be provided in the event management or performance fees changed. K2 has the right to recover all proper and reasonable expenses incurred in managing the Fund and as such these expenses, including the responsible entity fee, may increase or decrease accordingly. The Fund's constitution defines the maximum that can be charged for fees described in this PDS.

07

How to transact on your investment

1. Read this PDS.
2. Complete the application form and client identification form at the end of this PDS and send them to the Unit Registry with cleared funds by 2pm on the last Business Day of the month.
3. Receive confirmation of your investment via email or post and begin accessing your account via our online portal.

Acquisition and disposal of Units

Applications

Initial application for investment

Investors must complete the application form available at the end of this PDS. To enable K2 to comply with the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 new investors must also complete the relevant client identification forms.

Application dates

Applications must be received by the Unit Registry by 2pm Australian Eastern Standard Time on the last Business Day of the month (**Valuation Day**) with units issued on the first day of the following month.

Note: you will need to observe your relevant bank's processing times to ensure the Unit Registry receives cleared funds by the deadline.

Subject to the Corporations Act, application money received after the deadline will be held in the Fund's trust account, unless directed otherwise in writing by the applicant, and units will be issued on the following Valuation Day. Any interest earned on application money (less applicable withholding tax) paid in advance of a Valuation Day will not be credited in favour of the applicant.

K2 reserves the right to refuse any application without giving a reason. If K2 refuses or is unable to process an application it will return the application money to the applicant who will not be entitled to any interest on that money. If a cheque or other deposit is dishonoured, the corresponding units are deemed not to have been issued. K2 and the Unit Registry accept no responsibility for any loss caused as a result of non-receipt of any application sent by facsimile, post or other delivery method.

Investors should note the 'Risks of investing shortly before a distribution period' and read the important information about taxation before making a decision to invest. Go to 'General Information' at www.k2am.com under 'How to Invest'.

Investing through an IDPS

If you are investing through an IDPS, such as a master trust or wrap account, you may need to complete a separate application form and provide a cheque payable to the relevant IDPS operator. Your rights and liabilities will be governed by the terms and conditions of the IDPS disclosure document. Investors should carefully read the terms and conditions of that document before investing in the Fund. Indirect investors investing through an IDPS do not acquire the rights of an investor in the Fund. IDPS investors will receive reporting directly from the IDPS operator, not from K2 and do not have the right to a 'cooling off' period (as described in this PDS) in relation to an investment in the Fund.

Additional investments (for existing investors)

Investors can add to their investment by completing an additional investment form available from K2 upon request. Before completing an additional investment form investors should ensure they have read the current PDS.

Disposal of Units

Making a withdrawal

An investor wishing to make a withdrawal must complete a redemption form available from K2 upon request and submit the completed form to the Unit Registry at least 30 days prior to the Valuation Day.

Withdrawal proceeds will be remitted by electronic transfer to the investor's designated account normally within a fortnight after the relevant Valuation Day. The minimum withdrawal is \$10,000 (unless otherwise permitted by K2) provided a minimum balance of \$20,000 remains in the Fund, otherwise only a complete withdrawal is permitted.

Short delays may occur if you redeem at 31 December or 30 June while distributions are being finalised.

Transfer of units

Investors wishing to transfer units to a different entity must complete a 'Standard Transfer Form', available at www.k2am.com or by contacting K2. Both the seller and buyer must provide their executed instruction on the same transfer form. If the buyer is a new investor to K2, they are also required to complete an Initial Application Form and Client Identification Form. A transfer of units from one entity to another may have tax implications and you should seek independent advice before proceeding.

Switching Investments

You may switch all or part of your investment between K2 Funds by completing a 'Switch Form' available from K2 upon request. A switch is processed as a withdrawal and an additional investment and accordingly an applicable buy/sell spread for a Fund will apply. Switching your investment from one Fund to another may have tax implications and you should seek independent advice before proceeding. Minimum investment balances apply to switching between Funds.

Suspension of issue of units and withdrawal of funds

Under the Fund's constitution, K2 may extend the period within which it must satisfy a withdrawal request by up to 30 days if it considers that it is in the interests of members to do so.

Where the Fund is not liquid (as defined in the Corporations Act) an investor does not have a right to withdraw from the Fund and can only withdraw where K2 makes a withdrawal offer to investors in accordance with the Corporations Act. K2 is not obliged to make such offers. You will be notified in writing of any such changes to your withdrawal rights.

Retail investors

If you are an eligible retail investor you may have a right to a cooling off period to ensure that the investment meets your individual needs. The period commences on the earlier of confirmation of the investment being received or available, or the end of the fifth day after units are issued, and lasts for 14 days. The investor is entitled to a refund of their investment, adjusted for any increase or decrease in the NAV between the time the Unit Registry processed the application and the time it receives the notification, as well as any tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment. A client's right to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan or represents additional contributions made under an existing agreement. To exercise this right the registry must be notified in writing.

If you wish to discuss any aspect of the Fund or wish to lodge a complaint please contact K2 and we will endeavour to resolve your concerns quickly and fairly. If K2 cannot resolve your complaint you may seek assistance from:

Financial Ombudsman Service (FOS)
GPO Box 3 Melbourne Vic 3001
Phone: 1300 780 808
Website: www.fos.org.au

You should quote the K2 FOS membership number with your enquiry: 12481.

Please note that different procedures to the above may apply for IDPS investors.

Unit pricing (NAV per unit)

The calculation of unit prices is set out in the Fund's constitution and is performed by the Fund's Administrator each Valuation Day. Broadly, unit pricing is calculated by:

1. calculating the Gross Asset Value of the Fund as at the relevant Valuation Day;
2. deducting any liabilities (including management fee);
3. deducting any accrued performance fee after the deduction of liabilities; and
4. dividing the resulting NAV by the number of units on issue, this amount being rounded to the nearest cent (0.5 of a cent will be rounded up).

Terms for fax instructions

Instructions may be submitted by facsimile on +61 3 8672 7663. By lodging a fax request the investor releases, discharges and agrees to indemnify K2 from and against all losses, liabilities, actions, proceedings, account claims and demands arising from the fax request. The investor also agrees that any payment made in accordance with faxed instructions shall be a complete satisfaction of the obligations of K2, notwithstanding any fact or circumstances including that the payment was made without the investor's knowledge or authority. The investor agrees that if the payment is made in accordance with these conditions, the investor shall have no claim against K2 in relation to the payment.

Privacy

When processing an application, K2 will be collecting personal information which it may need to provide to third parties, such as its service providers, regulatory authorities as required by law or to satisfy United States requirements (in the case of United States persons). In some cases, the organisations to which K2 or its service providers disclose your information may be located outside Australia (including the United Kingdom, United States, Canada, Singapore, The Netherlands and India), though it is not practicable to list all of the countries in which such recipients are likely to be located. For further information about how we collect, hold, use and disclose your personal information, please read K2's privacy policy, which can be downloaded free of charge from our website at www.k2am.com.

How managed investment schemes are taxed

Warning

Investing in a managed investment scheme is likely to have tax consequences. K2's registered managed investment schemes do not pay tax on behalf of investors and you will be personally assessed for tax on any net income and capital gains generated by the scheme. In normal circumstances you should expect that some income and/or capital gains will be generated each year. The taxation of managed investment schemes is complicated and you are strongly advised to seek professional tax advice relevant to your own circumstances before investing in the Fund.

You should read the important information about taxation before making a decision to invest. Go to 'General Information' at www.k2am.com under 'How to Invest'. The material relating to taxation may change between the time when you read this PDS and the day when you acquire the product.

FATCA

K2 is deemed to be a "foreign financial institution" (FFI) under the US Foreign Account Tax Compliance Act (FATCA). As an FFI, K2 is required to obtain and disclose information about certain US and US-owned investors. K2 may request you to provide certain information so that K2 can comply with its obligations under FATCA as US withholding tax may be imposed on payments to the Fund of US income or proceeds from the sale of US securities if K2 does not obtain all required information. While K2 attempts to take all reasonable steps to comply with its obligations under FATCA and to avoid the imposition of this withholding tax, K2 cannot guarantee this outcome.

09

The Fund's service providers

The following service providers to the Fund are not responsible for the preparation of this document or the activities of the Fund and therefore accept no responsibility for any information contained in this document. These service providers do not participate in the investment decision-making process.

K2 as responsible entity of the Fund monitors the compliance of all of the following service providers with their contractual obligations through receipt of compliance certifications, performance review and audit activity performed by the Fund's external auditor KPMG.

About the Prime Broker

Morgan Stanley & Co. International plc. (**Prime Broker**), based in London, provides prime brokerage services to the Fund under a standard agreement (**PB Agreement**). These services may include margin financing, clearing, settlement, stock borrowing and foreign exchange facilities. The Fund deals with the Prime Broker mostly through its Sydney office. The Fund may also utilise other members of the Morgan Stanley group of companies and other brokers for executing transactions for the Fund.

The Prime Broker also provides a custody service for the Fund's investments held by the Prime Broker in accordance with the PB Agreement and the rules of its regulator the UK Financial Conduct Authority (**FCA**). The Prime Broker may appoint sub-custodians, including other members of the Morgan Stanley group.

Identification and segregation of Fund assets

In accordance with FCA rules, the Prime Broker will identify, record and hold the Fund's investments so that they are separately identifiable from the Prime Broker's other investments.

Collateral and some other investments may not be segregated

Investments which constitute collateral for the purposes of the FCA rules, might not be segregated and may be available to creditors of the Morgan Stanley group. The law or market practices in some jurisdictions outside of Australia and the United Kingdom may require that investments are registered in the name of the Prime Broker (rather than a custodian), in which case such investments will not be segregated from the Prime Broker's own assets and in the event of the Prime Broker's default may not be protected. Cash held by the Prime Broker or its related entities will not be treated by the Prime Broker as client money and will not be protected by FCA 'client money' rules.

Borrowing of Fund assets

Investments and cash might be deposited by the Fund with the Morgan Stanley group as margin and will also constitute collateral for the purposes of the FCA rules. The Fund's investments may be borrowed, lent or used by the Morgan Stanley group, which would transfer property rights but leave the Fund with a right for the return of equivalent assets. The Fund will rank as an unsecured creditor and, in the event of the insolvency of a Morgan Stanley group entity, the Fund may not be able to recover such equivalent assets in full. To better protect investors, K2 and the Prime Broker have agreed at the request of K2 to specific limitations on the borrowing and use of Fund assets.

Contractual relationship

Consistent with typical industry practice, the liability of the Prime Broker and its related entities is limited to circumstances involving its own negligence, wilful default or fraud, and the Prime Broker benefits from a limited indemnity from the Fund. The Prime Broker can be replaced by K2 by providing written notice. Various notice periods apply depending on the circumstance for termination of the contract.

About the Custodians

State Street Australia Ltd

K2 has appointed State Street Australia Ltd (**SSAL**) to act as global custodian of the Fund on terms consistent with typical Australian market practice. SSAL is the Australian subsidiary of a global business and is based in Sydney. It holds an Australian Financial Services Licence and is subject to ASIC regulation.

As is standard practice for global investment dealings, SSAL engages third party sub custodians around the world to transact and hold assets for the Fund.

Morgan Stanley Private Bank, National Association

Morgan Stanley Private Bank, National Association (**MSPB**), a US national banking association regulated by the Office of the Comptroller of the Currency and the Federal Deposit Insurance Corporation has been engaged to provide additional custody services to the Fund if deemed necessary by K2 on terms consistent with typical market practice.

MSPB can engage unrelated third party sub-custodians, subject to certain duties on MSPB.

MSPB is authorised to transfer certain assets of the Fund's investments to the Fund's prime brokerage account with the Prime Broker in certain situations, consistent with typical market practice. MSPB is not permitted to borrow, lend, charge, rehypothecate, dispose of or otherwise use for its benefit any investment held in custody on behalf of the Fund.

MSPB is an 'insured depository institution', as defined in the US Federal Deposit Insurance Act and certain cash deposits are insured by the US Federal Deposit Insurance Corporation (FDIC). However, MSPB may place funds with other depository institutions that may not carry the full protection of FDIC insurance.

About the Administrator

State Street Australia Ltd

K2 has appointed State Street Australia Ltd (**SSAL** or **Administrator**) (ABN 21 002 965 200 AFSL 241419) based in Sydney, Australia to act as Administrator of the Fund. K2 and SSAL have entered into an agreement for administrative services for the Fund that sets out SSAL's role as Administrator, including its rights and obligations and the limits on its liability. Responsibilities of SSAL include:

- calculating the NAV and unit price for the Fund each Valuation Day;
- preparation of unaudited financial statements for the Fund in accordance with international financial reporting standards;
- providing certain other administrative services.

SSAL's obligations in relation to the Fund are limited to the provision of services to K2, and SSAL has not undertaken any obligations to unitholders.

About the Unit Registry

OneVue Fund Services Pty Limited

K2 has appointed OneVue Fund Services Pty Limited (ABN 18 107 333 308) based in Melbourne (**Unit Registry** or **OneVue**) to provide unit registry services to the Fund. K2 and OneVue have entered into an agreement that sets out OneVue's responsibilities, which include:

- receiving and processing application money and withdrawal payments;
- maintaining the Fund's register of unitholders;
- preparation of annual fee statements for the Fund in accordance with legislation;
- compliance with anti-money laundering requirements;
- providing certain other administrative services.

Appointment of New Service Providers

K2 may remove the Fund's Prime Broker; Custodian; Administrator or Unit Registry and appoint a replacement at any time without notice to investors. Changes to a key service provider will be disclosed to investors in the Fund's periodic disclosures.

10 Information for New Zealand Investors

a) This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

b) This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.

c) There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

d) The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

e) Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

f) The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

g) If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

h) The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

i) If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

j) The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

11 Terms used in this PDS

Business Day means a day other than a Saturday, Sunday or public holiday in Melbourne.

Gross Asset Value means the value of all the assets and liabilities of the Fund, prior to fees.

The **High Water Mark** is determined by:

a) where a performance fee is paid or payable in respect of the immediately preceding half financial year, the highest NAV per unit from which a performance fee has been last deducted in the immediately preceding half financial year; or

b) where a performance fee is not payable in respect of the immediately preceding half financial year, the higher of:

I. the NAV per unit as at the end of the immediately preceding half financial year, and

II. either the relevant NAV on the date of your initial subscription in the first half financial year of investment or the last NAV from which a performance fee has been paid, if any.

A High Water Mark is a NAV price above which the investment manager is eligible to charge a performance fee. If the current NAV falls below the High Water Mark, K2 must reach the High Water Mark before receiving a performance fee on additional performance.

Long position refers to an asset which is held with the expectation that the value of the asset will appreciate.

Net Asset Value (NAV) means the Gross Asset Value of the Fund, less all fees.

Short position (or **Short Selling**) refers to an investment technique in which an asset is borrowed and then immediately sold in the expectation that the asset will then depreciate. The borrowed asset is repaid by buying back the asset on the market, with the intention of obtaining it at a lower price. The asset is then returned to the original lender.

Identification and verification

Please complete the section below if you are a financial adviser identifying and verifying your client.

As the investor's financial adviser, I:

will complete either the relevant K2 investor identification form available at the end of this form or the relevant Financial Services Council, formerly IFSA (FSC) form and any supporting identifying and verifying documents.

or

have identified and verified the investor through the relevant Financial Services Council, formerly IFSA, (FSC) standard identification forms and attached a copy of this completed standard identification form to the application form.

As the investor's financial adviser, I represent and warrant to K2 that I, as applicable:

- have followed and complied with the FSC Guidance Note No. 24 (GN 24) in identifying and verifying the investor and any other applicable anti-money laundering and counter-terrorism financing legislation (AML laws) and will continue to comply with GN 24
- will provide, upon request, original identification and verification records and details of the identification procedures adopted
- have kept a record of the investor's identification and verification and will retain these for a period of seven years after the investor/adviser relationship has ended
- will if requested update and re-verify the investor and provide any other additional information regarding the investor
- will not knowingly do anything to cause K2 to breach AML laws and will notify K2 if I become aware of anything that would cause it to breach AML laws, and
- confirm that the details provided in the identification form are true and correct.

Please note K2 reserves the right to reject the applicable GN 24 form attached to this application form for whatever reason (for example, if it has been incorrectly completed).
