1 General Information

This condensed interim report covers the K2 Asian Absolute Return Fund (the "Fund") as an individual entity which is a registered managed investment scheme under the *Corporations Act 2001*. The Fund was registered with ASIC as a registered managed investment scheme on 13 November 2003 and began operations on 1 September 1999. The Fund will terminate on 16 August 2079 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

The Responsible Entity of the Fund is K2 Asset Management Ltd (the "Responsible Entity"). The Responsible Entity's registered office is Level 32, 101 Collins Street, Melbourne, VIC 3000. The financial statements are presented in Australian dollars.

2 Basis of preparation of interim financial statements

The condensed interim financial report for the half-year ended 31 December 2019 have been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standard AASB 134 *Interim Financial Reporting*.

This condensed interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2019, any public announcements made in respect of K2 Asian Absolute Return Fund during the condensed interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001* and the current Product Disclosure Statement.

This condensed interim report was authorised for issue by the directors on 19 February 2020.

(a) Significant accounting policies

Except as disclosed in the financial report for the year ended 30 June 2019, there were no new accounting standards, amendments and interpretations that are expected to have a material impact on the financial statements.

The significant accounting policies adopted in the preparation of these interim financial statements are consistent with those followed in the preparation of the Fund's financial statements for the year ended 30 June 2019.

3 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis:

- Financial assets / liabilities at fair value through profit or loss (see Note 4 and 5)

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(i) Fair value in an active market (Level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments in accordance with the accounting policies set out in Note 2 to the annual report for the year ended 30 June 2019. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

3 Fair value measurement (continued)

The quoted market price used for financial assets and financial liabilities is the last traded price. When the Fund holds derivatives with offsetting market risks, it uses last traded prices as a basis for establishing fair values for the offsetting risk positions and applies this last traded price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) Fair value in an inactive or unquoted market (Level 2 and Level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the reporting date. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the reporting date taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date. The fair value of an option contract is determined by applying the Black Scholes option valuation model.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

Recognised fair value measurements

The following table presents the Fund's assets and liabilities measured and recognised at fair value as at 31 December 2019 and 30 June 2019.

As at 31 December 2019	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000

Recognised fair value measurements (continued)

Total	<u>164</u>	<u>-</u>	<u>-</u>	<u>164</u>

(i) Transfers between levels

There were no transfers between levels in the fair value hierarchy for the half-year ended 31 December 2019 and year ended 30 June 2019. There were also no changes made to any of the valuation techniques applied as of 30 June 2019.

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(ii) Fair value measurements using significant unobservable inputs (Level 3)

All financial instruments held by the Fund with fair value measurements using significant unobservable inputs at 31 December 2019 and 30 June 2019 have been valued \$0.

(iii) Valuation processes

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being Level 3 securities.

Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from Level 3 are analysed at the end of each reporting period.

(iv) Financial instruments not measured at fair value

The Fund did not hold any financial instruments which were not measured at fair value in the statement of condensed interim financial position. Due to their short term nature, the carrying amounts of receivables and payables are assumed to approximate their fair value.

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. We conducted our review in accordance with *Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the Interim Financial Report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Scheme's financial position as at 31 December 2019 and its performance for the half-year ended on that date; and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*. A review of an Interim Period Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
